offers practice for the candidates taking dental osce exams this book takes readers through more than 100 osce stations exploring areas in which they are tested it also includes a mock exam enabling readers to put their skills into practice and to experience the osce format

clinical problems in dentistry 50 osces and scr this book gives both an understanding and an approach to pass both mfds and mjdf exams detailed cases from real patients will enable the postgraduate dentist to gain an appreciation of the standards required and the professional behaviours expected from a successful candidate building the basic osce into the scr this is the only book aimed at both the mfds and mjdf exams starting with exam expectations the following five chapters of subject based questions cover medical emergencies medical matters ethical examples clinical cases and ends with procedural problems written in line with the 2013 gdc standards this

text should prove to be useful not only for those preparing for the mfds and mjdf exams but for all members of the dental team who wish to use clinical problems in dentistry for their cpd requirements clinical problems in dentistry has been content evaluated edited and reviewed it should prove to be a valuable addition for the modern dental professional s reading key features 1 mandatory core cpd areas covered 2 focus on communication and non technical skills for the exam and the clinic 3 additional information from the osce to the scr level for each question 4 citations and references provided for further reading 5 easy to read detailed studies of patients describing them as people and not just clinical cases

this book serves as a reference guide for dental teachers at all career stages as well as aspiring dental educators who aim to improve their teaching methods student learning outcomes and enhance the reputation of their dental school each chapter comprehensively discusses key aspects of the topic including instructional strategies evaluation principles and self directed learning different learning models like class room teaching small group learning chair side teaching in the clinics to modelling and simulation are discussed as well as principles of assessment including setting up a question paper for written examination to more objective practical and clinical assessment strategies such as osce ospe and osve the topics covered in each chapter are chosen based on current evidence from dental educational research and range from educational objectives to mentoring and work place based assessment among dental students in order to provide the best possible education dental teachers need to be constantly improving in their faculties as an effective educator this book is a primary reference source for researchers and academics keeping in mind the self development needs irrespective of their clinical specialty and their experience level

in the realm of adult learning graduate and postgraduate education teaching and assessment strategies are usually an extension of undergraduate strategies without contextualizing the different needs of this learner community unlike undergraduate learners graduate and postgraduate learners are a population of different skills and attributes carrying strong academic professional and social personal identities to strengthen this relationship of personal and professional self adult learner goes through the functional enculturation critical thinking and emancipation stages while believing in relevance to their practice they capitalize on their prior knowledge and bring complexity to the learning context using their varied experiences and needs despite years of research into andragogy and interesting findings on the differences in learning e g attention working memory executive function etc in an ageing adult brain it is harder to make any claim about dramatically different teaching and learning needs of adult learners additionally there is an inadequacy of research tapping into the effectiveness of collaborative flexible self directed and reflective learning and formative competency based assessment in this learner population to strengthen healthcare systems we aim to curate a research collection of articles considering teaching and assessment strategies for adult learners to create a holistic and comprehensive snapshot of the preferences and needs of adults in the context of postgraduate health professions education this article collection lead will focus on the studies exploring innovative learning and assessment strategies within the context of graduate and postgraduate health professions education this area will also include the integration of ai and competency based education to address the intricacies associated with graduate and postgraduate degrees particularly in nursing medicine allied health physiotherapy dental and interdisciplinary teams with a specific emphasis on adult learners the contributions should seek to identify effective pedagogical approaches tailored to the unique learner characteristics and challenges

posed by diverse healthcare disciplines we also aim to consider the limited availability of educational collections in this domain and provide insights that will be beneficial for the potential audience including educators program developers and practitioners manuscript submissions must focus on graduate and postgraduate health professions education and could consider such themes as for example but not limited to investigation of the needs and preferences of adult graduate and postgraduate learners as they differ from undergraduates novel teaching and assessment strategies for adult learners or assessment of the effectiveness of current strategies applications of ai and other new technologies in graduate and postgraduate education differences in effective pedagogical approaches across graduate and postgraduate education in diverse healthcare disciplines exploration of educational strategies that align with the age related changes in neurophysiological and cognitive profiles of adults the educational strategies may include adaptive technologies cognitive training interventions or teaching and learning approaches we welcome original research systematic reviews policy and practice reviews hypothesis and theory perspectives clinical trials community case studies curriculum instruction and pedagogy data report and brief research report specific to the context of this collection we don t accept opinion and commentary manuscripts topic editor nabil zary has received research grants from pfizer and ge healthcare independent medical education grants with no involvement from the funders all other topic editors declare no conflicts of interest

includes section book reviews
